Bardstown, KY

December 12, 2006

Mark Labhart, Reviewer
SOURCE I.D. #: 021-179-00048
SOURCE A.I. #: 39455
ACTIVITY #: APE20010002

SOURCE DESCRIPTION:

Chris's Creations Inc. manufactures finished wood kitchen cabinetry. The primary source of emissions from this facility is from the spray coat finishing operations.

Potential facility wide emissions of xylene and toluene, hazardous air pollutants, each exceed 10 tons per year. Potential emissions of VOC from this facility are approximately 208 tons per year. However Chris's Creations Inc. has requested voluntary permit limits of less than 9.0 tons per year of individual hazardous air pollutants (HAP), less than 22.5 tons per year of combined HAPs, and less than 90 tons per year of VOC.

PUBLIC, EPA, AND AFFECTED STATE REVIEW:

On September 13, 2006, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Kentucky Standard* in Bardstown, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on October 20, 2006 via e-mail. No states are affected by this permit action. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
